THE CHICAGO BEARS IGNITE THE CITY

Chicago is electric right now. **The Chicago Bears** have energized the city by not only returning to the playoffs but advancing to the second round. It's the kind of run that brings neighborhoods together and reminds everyone what Bears football means to this city.

We wanted to acknowledge this moment because the leader of **Global Pathways** has had the privilege of working with the Bears for many years as an ambassador focused on fan experience and stadium experience. This role includes representing the organization inside and outside of Soldier Field at events such as Bears Training Camp, the NFL Draft, and Family Fest. This postseason success feels personal, and we join the city in congratulating the Bears on an exciting and historic run.

CHOOSE CHICAGO

Global Pathways' Executive Director was featured in **Choose Chicago's** recent city pride campaign, part of the official New Year's Rockin' Eve broadcast.

In two spotlight videos, he shared what makes Chicago special—highlighting its people, energy, and global influence. It was a powerful moment to represent the city on a national and international level.
